Work Experience:

Wovvtech, India   **Sep 2020 – Feb 2023**
Software Developer
- With my expertise in React-Native, I led the design and development of key components, ultimately resulting in an exceptional user experience.
- Leveraging my deep knowledge of ES6 concepts, I implemented code that was both efficient and effective.
- Proficient understanding with browser testing and debugging, cross browser compatibility issues.
- Involved in integrating UI with API and loading data using RESTful APIs.
- My proficiency in React and Redux allowed me to work with ease, delivering high-quality code.
- Demonstrating a strong understanding of React states and props, I created reusable container components such as headers and footers, streamlining development and improving overall efficiency.

Megh Technologies, India   **June 2019 – Aug 2020**
Frontend Developer
- Independently learned React Native and skillfully developed multiple app features, culminating in the successful deployment of a voice mobile app on the App Store/Play Store.
- Led the porting of a web application to a mobile view, utilizing strong CSS and SASS skills to achieve pixel-perfect layout and conversion of wireframe designs to HTML.
- Leveraged expertise in enhancing CMS applications, contributing to the continued success of the team.

Dhrup IT Solutions, India   **Aug 2017 – June 2019**
Web Designer
- Developed fully responsive websites using Bootstrap, JavaScript, HTML 5, CSS 3, and jQuery, with expertise in jQuery plugins including autocomplete, validations, and sliders.
- Designed and developed HTML email templates for business and marketing.
- Created various types of websites including E-commerce, Business, Entertainment, Educational, Personal, Brochure, and Media, with a focus on responsive design.

Bitbuffs, India   **Oct 2016 – May 2017**
Junior Web Designer
- Successfully converted PSD files into HTML and Bootstrap to create visually appealing web designs.
- Hands on experience in developing response webpages using WordPress.
- Utilized my skills in Photoshop to enhance overall aesthetics of web content.

Education

BE in Computer Science, Gujarat Technological University   **June 2013 – June 2016**

Certification

Google UX Design Certificate
